Accelerating Net-Zero Opportunities

The Growth Company

Accelerating Net-Zero Opportunities (ANZO) from Growth Company and the Business Growth Hub delivers two tailored courses, one for SMEs and one for GM residents focussed on green skills.

Course 1 – Electric Vehicle Pathway is a level 2/3 course for vehicle technicians to gain knowledge and skills to work safely when carrying out maintenance and repair activities on electric and hybrid vehicles and offers two qualifications.

Course 2 – Low Carbon Skills: Journey to Net Zero is a fully funded programme for businesses of any size in the early stages of the pathway to net-zero emissions.

Through workshops, study material, one-to-one advice and peer support shared learning, delegates will be equipped with the knowledge to understand their net zero priorities, implement cost and carbon cutting actions, use data to make decisions, build the business case for investments, engage staff and suppliers, build their reputation as a green business, and create a long-term green business strategy. Putting net zero into context, identifying key impacts and priorities, and using carbon foot printing to inform decisions.

	Electric Vehicle Pathway:
	<u>IMI Level 2 Vehicle Routine Maintenance Activities</u>
	<u>IMI Level 3 Electric/ Hybrid / Vehicle Repair and Replacement.</u>
<u>Low Carbon Skills: Journey to Net Zero</u>
